

## **Internet Classroom**

### **Radio Script (:60) Residential**

There's a place where you can learn to tap world markets, send a greeting, create your own web site or buy a house.

It's the Internet Classroom sponsored by <cable operator>.

Whether you're a beginner Internet user, advanced or somewhere in between, we have a FREE class of hands on, interactive instruction designed just for you.

Shop, browse, e-mail, work and play faster. You'll experience a real-time high-speed Internet demonstration *and* learn new search skills, practice using new Internet tools and, if you choose, design your own website--all in just minutes.

Have fun discovering all the advantages of cable's high speed Internet service.

Call 1-800-xxx-xxxx to register at <computer learning center> for the FREE Internet Classroom near you.

### **Radio Script (:30) Residential**

There's a place where you can learn to tap world markets, send a greeting, create your own web site or buy a house.
